Objective

I am a young, determined individual who is eager to learn new skills and develop my existing skill-set. I have gained valuable transferable skills throughout previous employment and work experience placements which I am enthusiastic to implement into employment. I have matured my organisation and time management skills which have assisted the efficiency of tasks being completed. I have a keen eye for attention to detail and I have excellent problem solving skills.

I am honest, punctual and reliable and would love the opportunity to prove such qualities. I am a very friendly person, and I enjoy meeting new people. I consider my self consistently extroverted, and also very compassionate.

One of my peers worked in this industry for a very long time, I saw his interest and passion for this sales, which cultivated and strengthened my own passion for this line of work.

Skills

blah blah
