Objective

I am a young, determined individual who is eager to learn new skills and develop my existing skill-set. I have gained valuable transferable skills throughout previous employment working as a lead software developer, which I am enthusiastic to implement in my employment. I have strong organisation and time management skills which have assisted the efficiency of tasks being completed. I have a keen eye for attention to detail and I have excellent problem solving skills. I am honest, punctual, reliable, and enthusiastic, and I would love the opportunity to prove such qualities. I have experience working in and leading agile (scrum) development teams, and have exceptional communication skills, both when it comes to conversing with co-workers, and external customers or clients.

Skills

I am proficient in navigating and configuring unix-like systems, and I am strongly adept with PHP, Go, Python3, and Web Development technologies.

Languages

PHP — 3 years professional experience, 5 years personal experience

GO — 6 years personal experience

Python3 — 3 years professional experience

Web Development — 5 years professional experience

Technologies

Linux Administration & Bash — 3.5 years professional experience, 8 years personal experience

Symfony — 3 years professional experience

SQL (MySQL & PostgreSQL) — 3.5 years professional experience

TypeScript — 3 years professional experience

GraphQL — 1 year professional experience

Redis — 1 year professional experience
