## Objective

---

I am a young, determined individual who is eager to learn new skills and develop my existing skill-set. I have gained valuable transferable skills throughout previous employment and work experience placements which I am enthusiastic to implement into employment. I have matured my organisation and time management skills which have assisted the efficiency of tasks being completed. I have a keen eye for attention to detail and I have excellent problem solving skills. I am honest, punctual and reliable and would love the opportunity to prove such qualities. My long term objective is to get eventually start working in the Information Security field, but I would also like to work as a web developer or system administrator.

## Skills

---

I have strong experience operating, maintaining, and administrating Linux, Windows, and MacOS systems. I am also adept at configuring web and database servers on both Linux and Windows systems. I have good knowledge of bash, so remote administration through ssh is no problem for me.

## Languages

**Programming**— C, Go, Assembly

**Scripting**— Python2/3, Bash, Javascript, PHP

**Markup**—  $\LaTeX$ , HTML, CSS, Markdown

## Job Experience

---

**Wild Wood Oils**— Laborer (2018)

**Insul-vest Australia**— IT support and general hand (2012 - 2014)

**Australian Blow Molders**— IT support and general hand (2012 - 2015)

**Express Plastics**— IT support and general hand (2013 - 2015)

## Education

---
